Please call one week prior to a program to connect via TWIV.

## TELEHEALTH NETWORK UPDATE

### Funding and Billing for T1 sites

Your bills will not reflect the new funding year USAC (Rural Health Care) credit until later in the year. This, unfortunately, will be similar to last year. I filed everyone's 466 in July, but unfortunately, USAC will not begin to process those forms until the fall.

Please remember to **pay your \$100 obligation EVERY month for your T1 line bills**. It is important to continue to pay this no matter what your bills reflect. If there is any change to this we will notify you right away. It is also important that you or your billing department keep a record of this payment for each funding year (June through July).

We are putting together spreadsheets for the T1 billing at each hospital to reflect the billing since the install dates last summer. Once these are completed, we should finally have a clear picture of where each site is in regard to the billing with Alltel. The Nebraska Universal Service Funds will be reconciling the bills for their portion for the previous funding year. We will try to visit each site individually to go over these with you once we've completed the process. We appreciate the timeliness of your responses to the requests for additional copies of these bills. This hopefully will make this process much less confusing for everyone.
