TELEHEALTH NETWORK UPDATE

WEB SITE

The state telehealth network has created a web site to help facilitate communication. The site is currently located at the server in Norfolk. Please offer suggestions for what information you think would be useful to house there. Your comments are appreciated.

Today the web site is located at:

<http://www.frhs.org/Telehealth/main.htm>

This is temporary while they finish developing it. The real URL will be www.netelehealth.org but has nothing there at this time.

Kim Robinette is the current webmaster for this site and Kim can be reached by Email at krobinette@frhs.org.

You can access these program offerings and more descriptions of these programs on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you are interested in connecting for any of these programs.

There is a current **contact and IP address information** sheet on the HHA web site. We will continue to update it as we add each site to the network. Please let us know if you have difficulty accessing this information.
