TELEHEALTH NETWORK UPDATE

USAC

The 2006 USAC funding year window opening is targeted for March 13, 2006. I will start file your USAC forms for the 2006 funding year. Unless there are corrections, the forms should be the same as the 2005 funding year. Please contact me if there are questions or concerns about this federal funding process. I will begin checking for discrepancies from the previous year.

Kandi Thomas –telehealth assistant

Connecting

Just a reminder that it is important to contact us at least 2 days prior to most video conferences. It is important that we know how many sites there will be for each meeting or program. Due to the limited bridge capacity, there are times that we need to use other sites bridges. Thank you for your cooperation with this.

For those sites interested in connecting for

The Diabetes Symposium

you must notify us by:

NO LATER THAN March 20, 2006.

You can access these program offerings and more descriptions of these programs and other meetings on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you are interested in connecting for any of these programs.

There is a current **contact and IP address information** sheet on the HHA web site. We will continue to update it as we add each site to the network. Please let us know if you have difficulty accessing this information.
