TELEHEALTH NETWORK UPDATE

Scheduling

The scheduling web site is in the process of being updated with all of the individual site information. Thank you to those that have sent us your site description information. Please send that information if you have not already done so. The hub site coordinators will train on the scheduling system on November 16 and 17. Each hub site will be responsible for training their sites on the basic user functions of the scheduling site and how it works. The scheduling committee has been working on procedures and policies. During the site trainings, we will begin to implement the policies and procedures for scheduling and registering for programs on the state network.

You can access program offerings and more detailed descriptions of programs and other meetings on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you are interested in connecting for any of these programs.
