HHA Meeting

TELEHEALTH NETWORK UPDATE

USAC update

Once again, the monthly USAC conference calls reiterated the importance of record keeping. It was stressed that (it was found through audits) there were locations that did not keep their information for 5 years, to include every monthly bill for their T1 lines. It was also stressed that this record keeping was required by the party receiving the federal reimbursement, even if they did not file the USAC forms themselves. Please be sure that you records for your Telehealth T1 lines are in order. The did mention that one action they were considering for this compliance failure was the collection of some of those past reimbursed funds.

Scheduling website

Thank you to all of you who have registered on the website and requesting programs there. Please continue to do so and let us know if you have questions or concerns about this process.
