## TELEHEALTH NETWORK UPDATE

### Monthly Tests

Please remember that you are required to connect for every monthly statewide test. You are only required to dial in, announce you are there, and then you can hang up. Please be sure to connect to the BryanLGH bridge for these tests at: **72.15.191.206**.

### Funding

Please remember that telehealth lines that are paid for by state and/or federal funds have specific requirements that have to be met. Any changes including; adding a line, moving a line, or discontinuing a line, have to be communicated to the entities funding your line. If you fail to meet any requirements, your funding will be jeopardized and you will be required to pay for the full cost of your lines. As telehealth continues to grow, please remember that any new contracts signed (and receiving federal funding) always have to go through the bidding process. Please see the USAC web page for review of the federal rural healthcare process guidelines at:

<http://www.universalservice.org/rhc/about/process-overview.aspx>

As always, please call us if you have questions or concerns.
