TELEHEALTH NETWORK UPDATE

Windstream bills

On your May billing from Windstream, you may notice a new charge of \$1.84 added to the bill. Carol has contacted Windstream and this is a billing error from Windstream as the telehealth sites are exempt from this fee. This charge should show as an adjustment credit on the June bill. Thank you for continuing to pay the \$100.00 per month fee each month.

NSTN Education

Thank you all for returning the survey's from the education committee. We have met and reviewed the results and it would appear there is a desire to have at least a one day educational session. At this time we are still discussing dates and possible locations. We will have several session throughout the day and repeat most of them so you will have the opportunity to attend several. It is in the very early planning stage at this point but will likely include topics relating to equipment usage, clinical applications, legislature, and possibly equipment demos. Thank you again for your input for this conference.
