## TELEHEALTH NETWORK UPDATE

### NSTN/NHA Grant

The Nebraska Statewide Network (NSTN) has been granted an appropriations requested by the NHA. The first distribution year (of three) begins Sept. 1, 2008. This grant will allow bandwidth, and equipment upgrades to the network and will require evaluations. Funding has also been allotted for one central person to do the USAC filing for the entire state. Lesley Bollwitt has tentatively been contacted about doing this. When that switch is made, you will be notified. As more information is available, we will keep you posted.

One final reminder, please continue to pay your \$100.00 per month for the T1 telehealth line. In July (of each year) the PSC does a reconciliation of the year. Your site will receive notification of any over or under payments. That is the only time each year that the payment may vary.

Thanks to everyone for your continued support in making this a successful network.

### USAC update

Form 465 will be filed soon for funding year 2008. Please remember if you want to add any lines you need to follow USAC guidelines. Contact Kandi Thomas if you have questions about this process.
