TELEHEALTH NETWORK UPDATE

Staff News

Brooke Cose is the new director of Education Services at BryanLGH. She started on Jan 7th. Brooke brings with her great experience, energy, and insight. We are excited to have her on board. She is working to get acquainted with the network and telehealth. She will be joining us for some of the upcoming meetings.

Equipment

As most of you are now aware, the service warranties have expired on our current Polycom VSX 7000's. As a result, if anything goes wrong with the camera, you will have to pay for the repair or replacement. If your warranty has been expired for longer than 6 months (which is the case for several of us) there is a recertification fee of \$380.00. In addition, you will have a service contract fee for either one or three years. It is unfortunate that we were not informed of this in a more timely manner, but our choice of options now appears to be either purchase a service contract or take your chances on nothing going wrong with your current equipment. The FCC has mandated that everything will be High Definition by February 2009 so that is also a consideration when deciding on a timeline for doing anything.

To renew the service contract, send an email request to:

Kevin Poppe, SKC
8320 Hedge Lane Terr.
Shawnee Mission, KS 66227
(800) 882-7779
(800) 454-4752 -FAX
kevin.poppe@skccom.com

Please include the serial number of your machine, the length of the contract desired and your billing address with your request.

If you are thinking of looking at other equipment or have additional questions, please don't hesitate to call Kandi or Carol.
