TELEHEALTH NETWORK UPDATE

Good News! The T1 lines to the remainder of the HHA sites are in and connected through the BryanLGH/HHA network. Everyone now has their routers in place and they are showing as live connections on the network.

We've had some software issues with the Checkpoint VPN Firewalls. So, initially, these will be set up to bypass the firewall. The network technicians are working with Checkpoint on the resolution.

The installation of the Polycom videoconferencing equipment will take place the week of July 25. I would expect it to run into the first week of August. The installer will do an initial training. Please be sure to have several people participate in this training if possible so you are not limited in the use of the equipment.

We hope to see everyone participating in programs and educational offerings, as you are able to connect. There is no charge for connecting unless educational credits are offered. If there is a charge, it is usually a minimal site fee and not a per-person fee. Please to contact Kandi Thomas or Carol Brandl if you wish to take part in any program or need further information.

-Carol Brandl ♦ telehealth coordinator

You can access these program offerings and more descriptions of these programs on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you interested in connecting for any of these programs.

We also have posted a current **contact and IP address information** sheet on this web site. We will continue to update it as we add each site to the network. Please let us know if you have difficulty accessing this information.
