TELEHEALTH NETWORK UPDATE

Use of the HHA Bridge and/or connections with a hosting site should be scheduled at least one week (or five working days) in advance of the program to facilitate equipment set up, personnel and distribution of program materials. "Last minute" connections for non-credit programs may be considered in special circumstances but cannot be guaranteed.

The Center for Advancing Nursing Practice requires that sites sign up for continuing education TWIV programs no later than two working days in advance of the program so the above policy will comply with that guideline. This registration deadline will be noted with programs and is necessary to ensure program support and to complete the necessary paperwork for the continuing education credit. The same deadlines would apply for programs offering Physician CMEs, or other professional CEUs.

You can access these program offerings and more descriptions of these programs on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you are interested in connecting for any of these programs.

There is a current **contact and IP address information** sheet on the HHA web site. We will continue to update it as we add each site to the network. Please let us know if you have difficulty accessing this information.
