TELEHEALTH NETWORK UPDATE

Great news! We are finally in the actual ordering stage of the T1 lines for the additional 17 sites connecting with BryanLGH.

Once we have T1 installation dates, we will coordinate with SKC to have the Polycom equipment set up at each facility so you will be able to start using the equipment as soon as possible.

The educational and technical subcommittees for the statewide network are working on policies and procedures for sharing and scheduling programs, education, etc., across the state. Hopefully, we will be able to find something that will work well for everyone. If you have particular needs or interests at your facility, please do not hesitate to share those.

As this network finally becomes a reality, we hope everyone will look for ways to utilize it. BryanLGH currently offers programs for staff and community, CEU and CME education, meetings and some areas of telemedicine. We look forward to seeing this network finally become a reality.

-Carol Brandl ♦ telehealth services coordinator

You can access these program offerings and more descriptions of these programs on the HHA web site at:

<http://www.hha.org/home/>

Please contact Carol or Kandi if you interested in connecting for any of these programs.

We also have posted a current **contact and IP address information** sheet on this web site. We will continue to update it as we add each site to the network. Please let us know if you have any difficulty accessing this information.
